The Board must consider a number of options and ways to make DirigoChoice more affordable.

GOHPF applied for a Federal HRSA grant to expand coverage to low income, uninsured, part-time/seasonal workers in large businesses through the Agency’s programs.

The Agency is working with GOHPF to determine opportunities to leverage Federal funds to expand the Agency’s programs.

GOHPF is working with the Agency and a stakeholder group to identify an exchange in Maine to leverage ARRA funds for HIT.

The Agency is working with GOHPF to determine opportunities to leverage Federal funds to expand the Agency’s programs.

The Agency is working with the Maine Health Management Coalition and Quality Counts to pilot primary care medical homes.

The Agency is required to convene stakeholders to investigate the implications of shared decision making in health care and to report back to the Legislature on its findings. This work will also help inform the payment reform examination.

The Agency will consult with MHDO to help them establish rules on public reporting by hospitals on MRSA and CDF. Also, the Agency, in consultation with the Infection Prevention Collaborative, will establish metrics for an assessment of hospital reporting functions and establish performance measures.
